RECOMMENDATION

Staff recommends that the City Council through Resolution No. 2016-064, take the following action:

1. Award a construction contract for the San Joaquin Circle Reconstruction project to the lowest responsive, responsible bidder, Dave Christian Construction Company Inc., in the amount of \$102,156.50.

EXECUTIVE SUMMARY

The Project consists in general of roadway excavation, pavement reconstruction, installation of curbs, gutters and tree removals in San Joaquin Circle.

Staff is requesting that the City Manager be authorized to execute the agreement for the San Joaquin Circle Reconstruction (Project) work with Dave Christian Construction Company Inc., subject to the submittal of the necessary bonds, insurance certificates and other necessary documents as required by the specifications, special provisions for this project and State law.

BACKGROUND

The scope of work for the Project consists in general of roadway excavation, pavement reconstruction, installation of curbs, gutters and tree removals in San Joaquin Circle. The Project is expected to begin in early July of 2016 with a construction period of 30 working days.

On May 18, 2016, a Notice to Bidders for the Project was advertised in the Fresno Business Journal for a period of approximately two (2) weeks. During the bidding period, a total of seven (7) contractors/subcontractors requested bid documents from the City for this project. Three (3) addenda were issued during the project bidding period to address the mandatory 10-day federal wage check, a revision to the median island in order to salvage the existing sycamore tree located in the middle of the San Joaquin Circle cul-de-sac and to extend the bid opening date from June 2, to June 7, 2016.

On June 7, 2016, City staff conducted the bid opening for this project where a total of seven (7) bids were received, opened and read aloud. The bids received ranged from \$102,156.50 to \$138,658.00 as shown in the attached bid tabulation. City staff reviewed and determined that the low bidder's proposal is both responsive and responsible per the construction documents for this project. Staff is recommending that the City Council award a construction contract to Dave Christian Construction Company Inc., for the amount of \$102,156.50.

FISCAL IMPACT

The construction cost of the Project is budgeted in the approved 2015-16 Budget entirely from Vehicle Impact Fees (VIF's). It is estimated that the construction costs (\$102,156.50) for the Project, plus a 10% contingency, and construction engineering costs (8% of construction costs) shall not exceed \$120,550.00.
